Connecting PLCs to CIA Framework

Ensuring Learner Success

Equity Centered

PLCs focus on equity by challenging bias and uplifting voices to ensure we are supporting all learners.

Culturally Driven Pedagogy

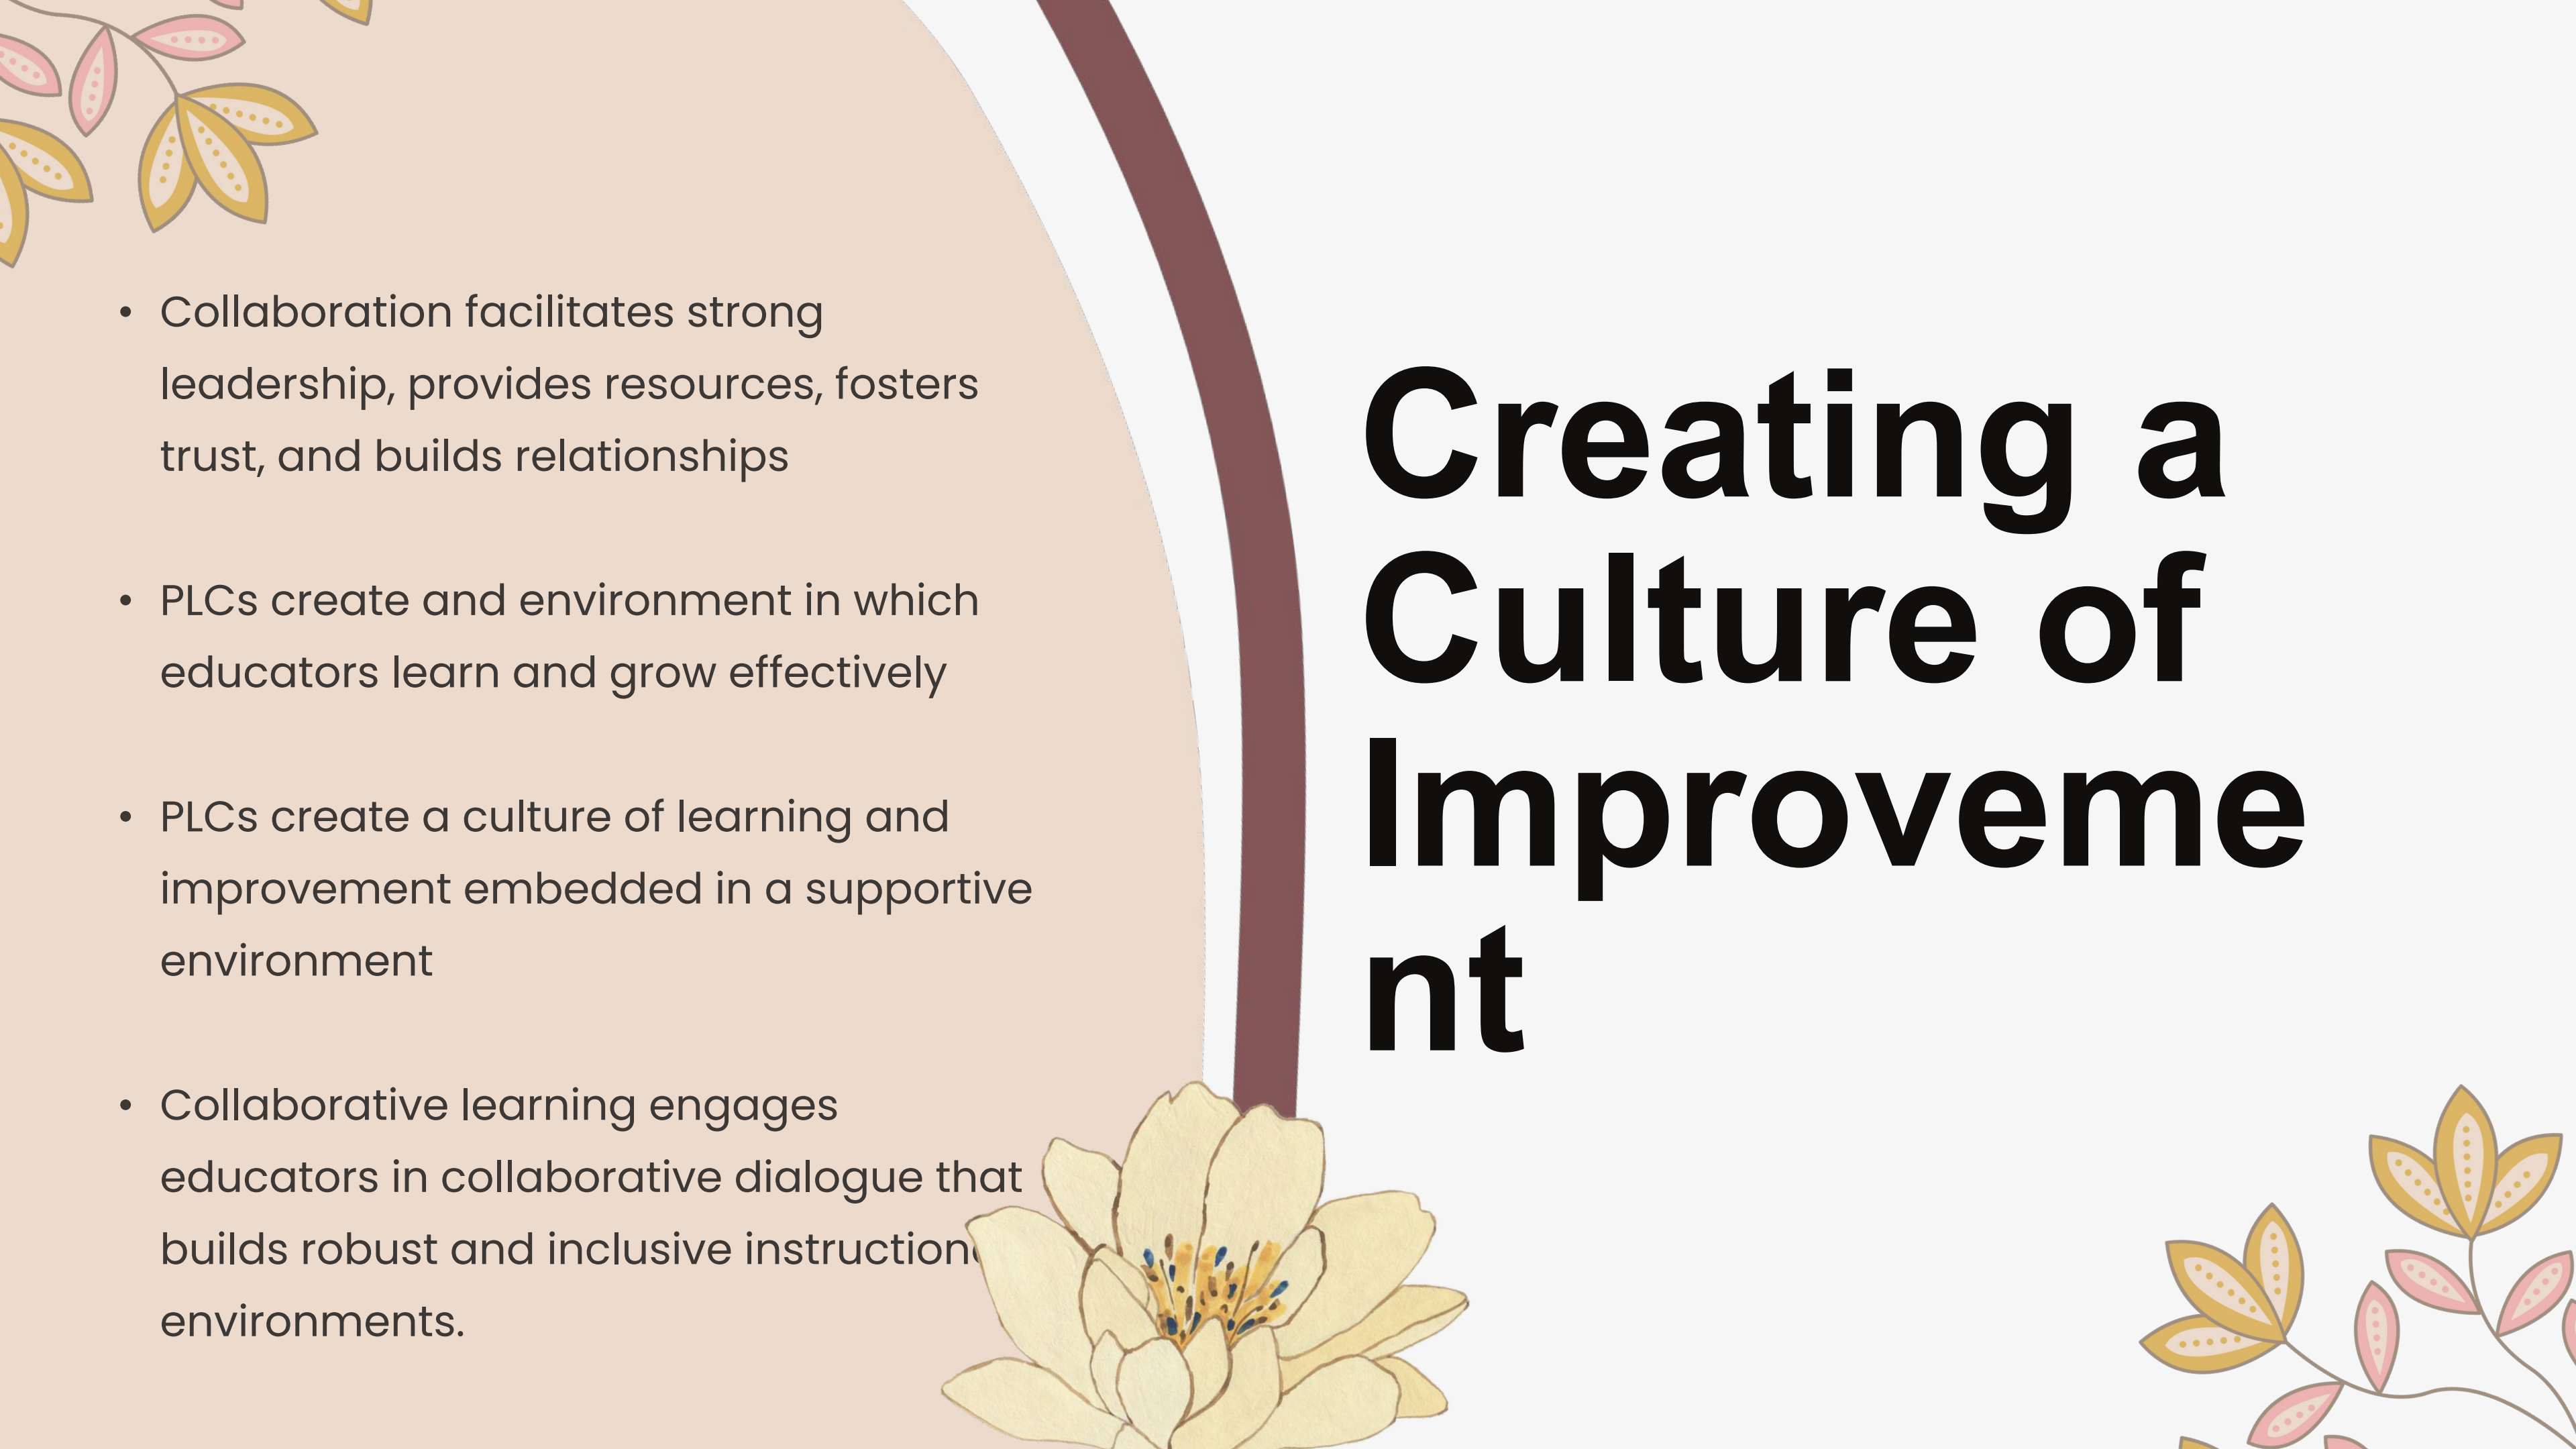

By collaborating and sharing knowledge educators build confidence in culturally inclusive content to enhance student engagement and representation in content.

Differentiated Support

PLCs create environments where tailored supports can be implemented to meet the unique needs of students, ensuring equitable access to learning.

Advocacy

Educators address learning barriers and become advocates for systems changes that support all learners opportunities for success.

- 
- Collaboration facilitates strong leadership, provides resources, fosters trust, and builds relationships
 - PLCs create an environment in which educators learn and grow effectively
 - PLCs create a culture of learning and improvement embedded in a supportive environment
 - Collaborative learning engages educators in collaborative dialogue that builds robust and inclusive instructional environments.

Creating a Culture of Improvement

**Together,
We Are
Better.**
